ABOUT

Facilitative designer committed to fostering collaboration and driving teams toward innovative, data-backed decisions. Background in Speech-Language Pathology bolstering a strong foundation in accessibility, research, and communication to gain alignment across teams and stakeholders.

EXPERIENCE

Apr 2023- present

Founder and Product Designer, Wilder Gelato

Strategically integrated product development skills into entrepreneurship by owning and establishing a commercial kitchen gelato business during focused period. Returning to UX design with enhanced adaptability and proven track record of navigating challenges with creativity and resilience.

Feb 2022- Apr 2023

Lead Product Designer, Spectrum Internet

Lead designer for native My Spectrum app self-install and troubleshooting experiences. Initiated and led new projects through research, design, and implementation phases to make impactful UX improvements. Recognized by leadership as accessibility and research champion. Moved to troubleshooting feature team to spearhead department improvement and lead team of 3 ahead of PWA redesign.

Jul 2021-Feb 2022

UX/UI Designer IV, Spectrum Internet

Lead designer for web portal that supports 500,000 self-installation users on average per month. Created a design system which quickened average delivery time by 2 months. Delivered solutions for projects such as fiber to the premise, self-install portal for small business owners, and voice line of business.

Feb 2021-Jul 2021

Product Designer, PIECES Elder Care Organizer

Designed end-to-end UX/UI for SaaS dashboard that coordinates care.

Feb 2020-Feb 2021

UX/UI Designer, Degree73

Designed B2B SaaS interface for a stock trading algorithm to easily customize and visualize back testing and live data for optimization.

Dec 2019-Feb 2020

Product Designer, Bowtie

Led team of 3 designers to redesign a Shopify web plugin to enhance monitoring features and prevent profit loss for business owners.
